GROUP WORKSHOPS

Workshops offer a unique opportunity to bring your team together to learn about, and explore the depth and diversity of 2SLGBTQIA+ communities.

QMUNITY offers two types of workshops **for groups of 30 or less**, each of which include free access to a self-guided online module (Foundations) that prepares participants for the workshops.

The online module offers participants the opportunity to acquire a baseline understanding of 2SLGBTQIA+ language and notions to prepare you for a dynamic learning experience that encourages reflection on the 'norms' our society prescribes us.

Book Workshops

Overview:

Our workshop series provides an extensive and collaborative learning experience through QMUNITY's **"queer learning circles"** that provide content exploration and application to equip your team with knowledge related to 2SLGBTQIA+ communities

Groups of up to 20 proceed through 4 intimate workshops that escalate in complexity to prepare them for the nuances of working with and celebrating 2SLGBTQIA+ folks.

Workshop #1 - Building a Community Circle

A review of our "Foundations of 2SLGBTQIA+ Inclusivity for Workshops"; introduction to the workshop model; and, construction of personalized community guidelines, accompanied by activities that emphasize allyship and building connections.

Workshop #2 - Two-Spirit Identities

Celebrates Two-Spirit folks and educates learners on the effects that colonialism and forced conformity have had on gender and sexuality.

Workshop #3 - Being an Active Bystander

Explore reactions to witnessing homophobic or transphobic interactions, what barriers to being an active bystander exist, and what we need in order to build enough confidence to step in

Workshop #4 - Conflict Restoration & Transformation

Since we all undoubtedly make mistakes, this workshop explores how we process guilt and rebuild relationships.

SELF-GUIDED ONLINE MODULE

Foundations of 2SLGBTQIA+ Inclusivity

This all-online self-guided course is the perfect option for those interested in learning more about queer inclusivity and/or staying up-to-date on the most recent developments in how we understand sexuality, attraction, and gender in society.

Each year, QMUNITY releases a new version of this self-guided online module to reflect the dynamic nature of learning about lived experiences.

The modules within this online course focus on the importance of advocacy and allyship in a Canadian context, reviewing key terminology, addressing the long-held history of 2SLGBTQIA+ peoples across the globe, intersectionality, and the erasure of queer culture and identities.
